Unit 5 Grange Way Business Park
Whitehall Road Industrial Estate
Colchester, Essex, CO2 8HF
England, UK

Our primary rental loudspeaker system is the British-designed and built Funktion-One Resolution Series arrayable point-source system.

Conceived and built unlike any other loudspeaker range in the world, the award-winning, patented technology embodied by these striking cabinets is a world away from any conventional system, with a combination of clarity, power and audio precision that belies their compact size. We partner the Resolution Series with XTA digital loudspeaker processing and MC2 amplification to guarantee top quality results throughout the audio chain.

All prices are EXCLUDING VAT at the normal rate.

All prices are in GBP (£).

All hirers are to sign a copy of our Terms and Conditions before equipment leaves. These can be found on our website at www.audio-plus.co.uk/rental.

Please call us to discuss your discount structure. This price list is list price only.
