

FUNKTION-ONE

F55

The F55 ultra-compact loudspeaker is the perfect choice for applications requiring wide-dispersion near-field coverage including bars, ancillary areas in larger venues, theatre front-fill, auditoria under-balcony and domestic use. It delivers high vocal intelligibility with excellent clarity and imaging detail, attributes rarely present in compact loudspeakers. Dual 5" drivers manufactured to Funktion One specification have been carefully optimised with superb enclosure tuning for use without processor or system equalisation thereby maximising fidelity, performance and the natural simplicity of this product. In common with the F81, out of operating band low frequency protection is incorporated. If additional bass reinforcement is required our smaller purpose designed bass enclosures make the perfect complement.

Features:

- Expansive sound from ultra-compact enclosure
- Excellent clarity, vocal projection and imaging
- Wide and even dispersion
- 5" drivers optimised to Funktion One specification
- Good Sensitivity
- No compression driver
- Choice of Speakon or single handed installation connectors
- Threaded mounting and attachment points
- Brilliantly tuned plywood enclosure
- Curved powder-coated mild steel grill

Driver Complement	Sensitivity [1W at 1m]	Power [rms]	Nominal Impedance
2 x 5" Loudspeakers	95 dB	60W	8Ω

Frequency Response: 170Hz - 16kHz
Weight: 3.4 kg [7.5 lbs]
Nominal Dispersion: 90° x 45°
Connectors: 2 x NL4 Speakon or Phoenix Installation Connector

Fitted with two Speakon NL4s or The Phoenix installation connector, complete with cable plug.
